

# My Quilting Beehive's 2020 Marvelous Mystery Quilt

## Month 10

We will be putting together a set of thirteen blocks this month! You will need:

- Thirteen flying geese & square units from month 4
- Twenty-six flying geese & square units from month 8
- Four-patch and rectangle units from month 5
- 3 ½" x 6 ½" rectangles of background fabric cut in month 5

Sew the twenty-six flying geese units from month 8 to the top and bottom of the units from month 4 to create an eight-pointed star. This block is traditionally called a Sawtooth Star. Depending on your choice in month 4, these might have four different flying geese around the center square, have one fabric for all the flying geese and another fabric for the center square, or be all one fabric. Press seams as shown by the arrows

Tips: Pin to match seams

Sew with the wrong side of the flying geese block on top so you can see the seam of your points as you sew (look back at month four directions). Block should measure 6 ½" x 6 ½"

Sew a 3 ½" x 6 ½" rectangle of background fabric to two opposite sides of your star.

Sew with the wrong side of flying geese on top so you can see the seam of your points so you can sew just at the point and avoid cutting off your points. Press seams toward the rectangle

This should measure 6 ½" x 12 ½"

Sew a four-patch and rectangle unit to the top and bottom of your star. Be sure to arrange the four-patch corners to match the illustration with the accent fabric in each corner of the finished block.

Pin to match seams. Press seams as indicated by arrows

Block should measure 12 ½" x 12 ½"

We are getting close!!! I cannot wait to see these blocks. Email photos of your blocks or post them in our Facebook Group.
